be the place to Q. JoJo, my friend told me about a hair Botox treatment that's not a chemical and keeps the hair straight when you press it. Can I get that during the summer only without damaging my hair, and if I get that treatment can I still wear my natural hairstyles with it? C. W. of Detroit

A. The Hair Botox is a conditioning system not a straightener, so your friend was right it's not a chemical. The hair cuticle is filled with conditioners that are locked inside. When sulfate-free products are used, the treatment can last 3-4 months.

This system wears off the hair gradually leaving the hair in its natural state. You can also wear your natural hairstyles while wearing the Hair Botox system.

Now, when I have pimples, I turn to the Mighty Patch pimple patches. I love that I can just put on a patch and trust that the patch is doing the work so I can focus on training and meets. Knowing that the patch is shrinking the look of my pimples in just 1 use, I wear the Mighty Patch with confidence."
